

## CORRIGENDUM

Because of a production error in “Estimation of Rainfall Based on the Results of Polarimetric Echo Classification,” by Scott E. Giangrande and Alexander V. Ryzhkov, which appeared in the *Journal of Applied Meteorology and Climatology*, Vol. 47, No. 9, 2445–2462, the figure reproduced as Fig. 12 is actually identical to Fig. 13 and is therefore incorrect. The correct figure originally submitted by the authors is presented below.

The staff of the *Journal of Applied Meteorology and Climatology* regrets any inconvenience this error may have caused.

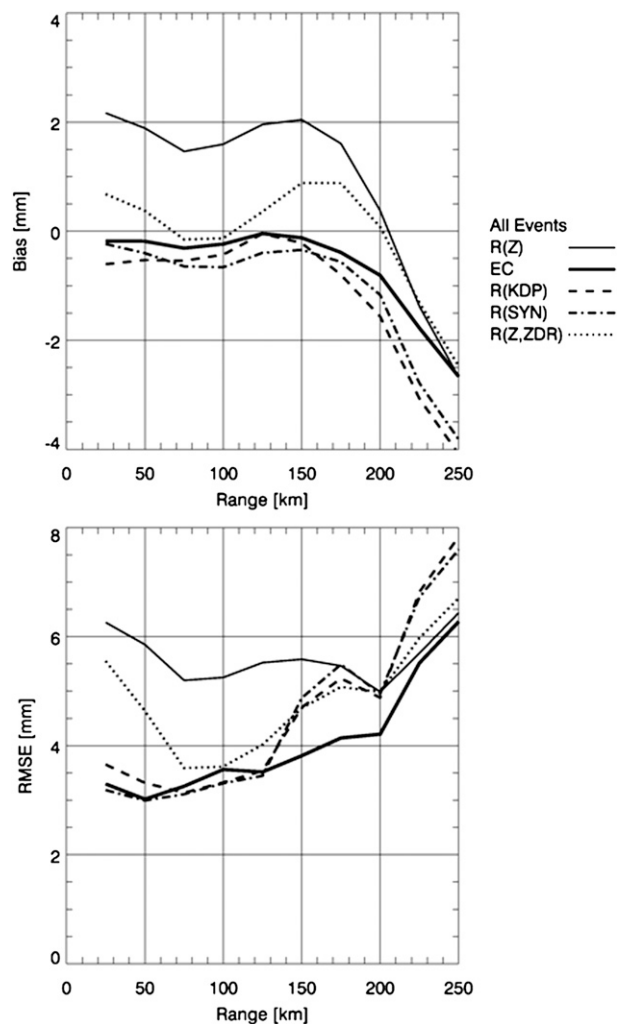

FIG. 12. (top) Mean bias and (bottom) RMS error of different radar estimates as a function of range (43 rain events, 179 h of observation).
