

at AMS headquarters

Executive Secretary Spengler was in Boulder, Colo., on 4-6 March. The first day was spent in conferences with AMS President Thompson, associate director of the National Center for Atmospheric Research, and with other NCAR staff members. On the 5th and 6th Mr. Spengler attended meetings of the Advisory Board of the Earth Sciences Curriculum Project. Part of the meetings consisted of visits to high school classes participating in the new earth sciences program for secondary schools.

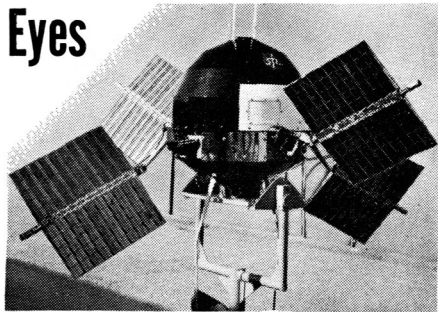

On 29 March Mr. Spengler attended a meeting of the Committee on Council Affairs, American Association for the Advancement of Science, Washington, D. C., and on the 30th visited the Air Weather Service headquarters at Scott AFB, Ill.

The AMS Board of Admissions (Ralph G. Eldridge, chairman, Wayne S. Hering, Charles H. Pierce, Frederick Sanders, and Paul F. Twitchell) met at AMS headquarters on the 15th.

Visitors during March included: Ernest Amtmann-Obregon, K. R. Amtmann Company, Mexico City, Mexico; William L. Fletcher, American Airlines, Inc., Chicago, Ill.; John Cunning,

Winthrop; Marion Hogan Ingram, Weather Services, Inc., Boston; R. J. Schroeder, Milprint, Inc., New York, N. Y.; Loren W. Crow, Weather Bureau special assistant for industrial meteorology, Washington, D. C.; Robert Mann, Lancaster Press, Lancaster, Pa.; Dr. and Mrs. Wallace E. Howell, W. E. Howell Associates, Inc., Lexington; John E. Wallace, Northeast Weather Service, Bedford; Mrs. Lawrence J. Kipp, Lexington; Barrie A. McLean and Kenneth O. Horn, AMS Film Project, Marblehead; Zola E. Watson, Dooley Foundation, en route from Southeast Asia to San Francisco; Prof. Wendell A. Mordy, Desert Research Institute, University of Nevada, Reno, Nev.; K. Vozoff, Lexington; Dr. Morton L. Barad, AFCRL, Bedford; Dr. David Ludlum, editor of WEATHERWISE, Princeton, N. J., with Mrs. Ludlum, former AMS staff member; Burdette Mesite, Framingham; William W. Hildreth, Lockheed Company, Northridge, Calif.; Isadore Silberman, Raytheon Company, Natick; Burton N. Brooks, Boston; Bruce W. Elliot, Madison, N. Y.; Dr. Harold W. Baynton, NCAR, Boulder, Colo.; Dr. Milton Levine, National Register of Scientific and Technical Personnel, National Science Foundation, Washington, D. C.; E. R. Harris, Auburndale; Jay Paris, Newton; Chester Allrens, Concord; Melvin Goldstein, Swampscott; Norman A. Mumford, Needham; F. Howard Rexroad, Weather Bureau, Boston; Joseph F. Zona, Northeast Weather Service, Bedford; Roger B. Stancliff, Hamden, Conn.; Capt. and Mrs. Douglas R. Greene and son, ETAC, USAF, Washington, D. C.; Norman B. Palmer, New York, N. Y.; Charles H. Pierce and Robert E. Lynde, Weather Bureau, Boston.

Weather Eyes In The Sky

AMERICA'S METEOROLOGICAL SATELLITES

by J. GORDON VAETH, National Weather Satellite Center, United States Weather Bureau

NEW! Here is the pictorial chronicle of the fascinating development and operation of our weather satellites, as told by a leading figure in the weather satellite program.

Dramatic photos, drawings, and diagrams illustrate the operation of the TIROS and Nimbus satellites... demonstrate their role in contemporary meteorology. Turning to future developments, the book shows how expanding technology will make possible new capabilities and applications in weather forecasting.

1965. 124 pp.

THE CLIMATE NEAR THE GROUND

Revised Edition

By *RUDOLF GEIGER*

The only adequate and authoritative text on the physical principles of microclimatology, this extensively revised book is indispensable not only to scientists and students in the field, but those in related sciences will find it an invaluable source of information on the practical application of meteorological principles. *Illustrated.* \$11.50
