AMS notice

The AMS Board on Women and Minorities is conducting a career survey of minority professionals in the atmospheric sciences. If you are a minority professional in the atmospheric sciences (this includes physicists, engineers, computer programmers, mathematicians, and others working in the field as well as meteorologists) please contact the board so that survey materials may be sent. Direct all calls or correspondence to: Dr. Francis J. Merceret, c/o NOAA/Research Facilities Center, P.O. Box 520197, Miami, Fla. 33152 (tel: 305-526-2936). ●

CONFERENCE ON CLIMATE AND ENERGY: CLIMATOLOGICAL ASPECTS AND INDUSTRIAL OPERATIONS

Preprints

May 8-12, 1978
Asheville, N.C.

The Conference on Climate and Energy: Climatological Aspects and Industrial Operations, sponsored by the American Meteorological Society, was held 8-12 May 1978 in Asheville, N.C. Since applied climatology is a primary activity, tool, or concern of every working industrial meteorologist, it is most appropriate that these two subdisciplines of meteorology are presented side-by-side in the 41 papers of this preprint volume.

The papers are arranged under the following topics:

Energy Consumption/Conservation • Modeling • Solar and Wind Energy • Effects of Power Production on Climate • Effects of Energy Usage on Climate • Industrial Meteorology and Energy • Forensic Meteorology • Meteorology and the Offshore Industry • Effects of Weather Extremes

194 pages

\$15 AMS Members

\$20 Nonmembers

(plus \$2.00 postage/handling)
