MICHAELA I. HEGGLIN

University of Reading, Reading, United Kingdom

(Manuscript received and in final form 21 December 2017)

In [Manney and Hegglin \(2018\)](#), we erroneously labeled the years on the x axes in [Figs. 5, 6, 10, and 11](#), so that the labels for DJF were shifted up by one year, and the labels for JJA showed a second year that was not relevant. The corrected versions of these figures are shown here. The error affects the supplementary figures S15, S16, S21, and S22. The complete supplement from [Manney and Hegglin \(2018\)](#), with those figures corrected, is included as the online supplement to this corrigendum. We apologize for the error.

Acknowledgments. We thank Zachary D. Lawrence for pointing out the error in the figure labeling.
