

CORRIGENDUM

In the article, "Assessment of the monthly mean surface insolation estimated from satellite measurements using global energy balance archive data" by Zhanqing Li, Charles H. Whitlock, and Thomas P. Charlock, which appeared on pages 315–328 of the February 1995 *Journal of Climate*, Vol. 8, No. 2, the resolution of the bias error bars in Fig. 8 on page 325 is not clear. The figure (and caption) are reproduced here for clarity.

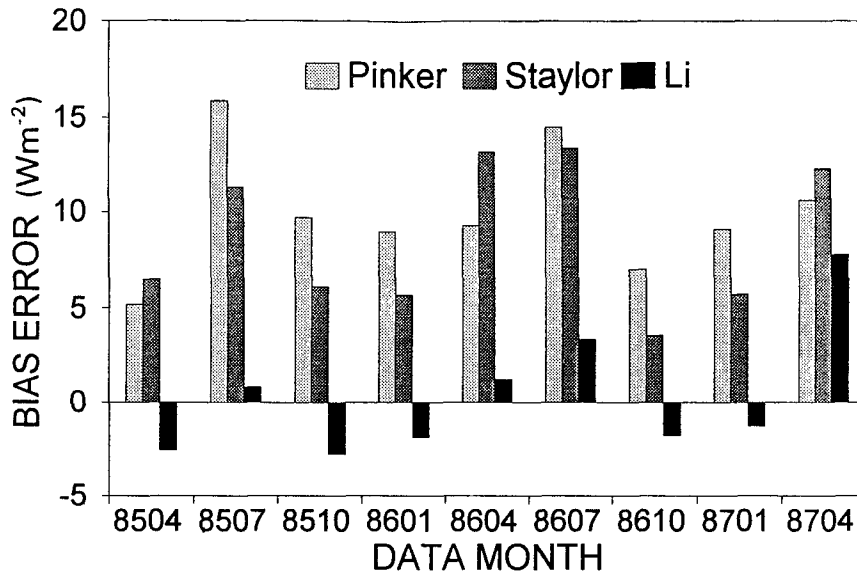

FIG. 8. Bias errors in the monthly mean estimates of surface insolation averaged over the global GEBA-ISCCP cells.
