

## CORRIGENDUM

JAKOB W. MESSNER AND GEORG J. MAYR

*Institute of Meteorology and Geophysics, University of Innsbruck, Innsbruck, Austria*

(Manuscript received and in final form 15 June 2011)

---

In Messner and Mayr (2011) there is an extraneous factor  $hc/b$  in the last term of Eq. (2a). The correct equation is

$$\frac{dX_k^*}{dt} = -X_{k-1}^* (X_{k-2}^* - X_{k+1}^*) - X_k^* + F - U(X_k^*). \quad (1)$$

This is a mere editing mistake. All computations used the correct equation without the extra factor so the results in the paper are unaffected.

We want to thank Daniel S. Wilks for pointing out this error.
