(Manuscript received 15 January 2021, in final form 26 April 2021)

This is a corrigendum to Fernández-Castro et al. (2020), in which a number of editing errors were found. The errors do not affect the results and the conclusions of the work, because the calculations and analyses were correct. A list of corrections is provided here:

- The in-line equation for the horizontal vorticity in section 3b, p. 1901, should read  $q_H = (\partial_y w - \partial_z v)\partial_x b + (2\Omega \cos\phi + \partial_z u - \partial_x w)\partial_y b$ .
- Equation (11) (section 3e, p. 1904) should be written as  $\omega = \omega_e - \mathbf{k} \cdot \mathbf{U}$  (11).
- Equation (12) (section 3e, p. 1904) should be

$$\omega = f_{\text{eff}} + \frac{N^2(k^2 + l^2)}{2fm^2} + \frac{1}{m} \left( \frac{\partial U_x}{\partial z} l - \frac{\partial U_y}{\partial z} k \right). \quad (12)$$

- The symbol labels were swapped in Fig. 12a (p. 1907). The squares represent the properties of eddy core ( $r < 15$  km), and the circles represent the reference properties outside the eddy ( $r > 80$  km).

*Acknowledgments.* We are grateful to Liming Fan, who noticed most of the errors.
