

Weather and Forecasting

WEATHER AND FORECASTING (*WAF*) publishes research that is relevant to operational forecasting. This includes papers on significant weather events, forecasting techniques, forecast verification, model parameterizations, data assimilation, model ensembles, statistical postprocessing techniques, the transfer of research results to the forecasting community, and the societal use and value of forecasts. The scope of *WAF* includes research relevant to forecast lead times ranging from short-term “nowcasts” through seasonal time scales out to approximately two years.

Co-Chief Editors

GARY LACKMANN

North Carolina State University

MATTHEW BUNKERS

NOAA/NWS Weather Forecast Office Rapid City

Editors

JOHN T. ALLEN
Central Michigan University

WALKER S. ASHLEY
Northern Illinois University

STEPHEN W. BIEDA III
NOAA/NWS Office of Science and Technology
Integration

KRISTIN M. CALHOUN
University of Oklahoma and NOAA/National
Severe Storms Laboratory

BENJAMIN KIRTMAN
University of Miami, Rosenstiel School for
Marine and Atmospheric Science

KAREN A. KOSIBA
