(Manuscript received and in final form 21 January 2015)

In Williams et al. (2014), the rain-rate equations have an incorrect unit conversion. The denominator in Eqs. (12), (28), and (29) should be 10^4 and not 10^3 . These typographical errors do not affect any calculations or figures presented in Williams et al. (2014), and we apologize for any confusion or inconvenience they may have created.

Acknowledgments. We thank Professor Guifu Zhang (University of Oklahoma) for pointing out these typographical errors. The research was carried out at the Jet Propulsion Laboratory, California Institute of Technology, under a contract with the National Aeronautics and Space Administration.
