

CORRIGENDUM

JASON NAYLOR AND MATTHEW S. GILMORE

Department of Atmospheric Sciences, University of North Dakota, Grand Forks, North Dakota

The caption for Fig. 9 in Naylor and Gilmore (2014) incorrectly identifies the symbols in the figure. The figure with its correct caption is presented below. We regret any inconvenience this error may have caused.

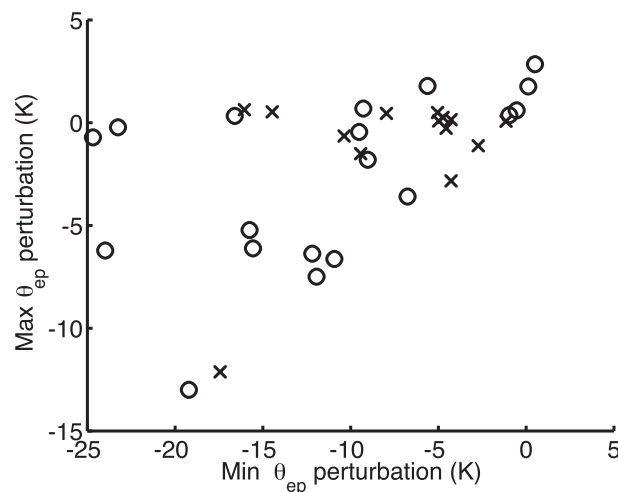

FIG. 9. Maximum and minimum perturbations of θ_{ep} for the TOR (circles) and NON (crosses) simulations. Perturbations are relative to the surface value in the base-state environment. The calculation was performed over a $1 \text{ km} \times 1 \text{ km}$ box centered on the circulation at the time of tornadogenesis or tornadogenesis failure.

Acknowledgments. The authors thank Dr. Paul Markowski for bringing this error to their attention.
