(Manuscript received 20 March 2020, in final form 20 March 2020)

During the publication process for [Jeevanjee and Fueglistaler \(2020\)](#), several production errors occurred that need correction. First, units of $\text{W m}^{-2} \text{cm}^{-1}$ were presented for the net upward LW flux in section 2b and for hemispherically integrated Planck emission in Eq. (17) in section 4a, instead of the correct $\text{W m}^{-2} \text{cm}$. Another unit error appears in Table 1, where units of $\text{K day}^{-1} \text{cm}^{-1}$ are shown instead of the correct $\text{K day}^{-1} \text{cm}$ for the spectrally resolved clear-sky longwave heating rate.

A formatting error occurred in the sentence immediately following Eq. (5) in section 2c, where $\pi B(k, T)$ should appear as $\pi B(\tilde{\nu}, T)$. The same formatting error of k being used instead of $\tilde{\nu}$ also occurs in the subscript on the left-hand side of Eqs. (7) and (8). In addition, following Eq. (14) $\kappa_{\text{H}_2\text{O}}(k)$ should appear as $\kappa_{\text{H}_2\text{O}}(\tilde{\nu})$.

None of these errors affected the results or conclusions of the paper. AMS regrets any inconvenience these errors may have caused when originally published.
