ABSTRACT: This corrigendum corrects a typo in Eq. (10) of Lubis and Hassanzadeh (2021) for calculating the cross-EOF feedbacks.

We have identified a typographical error in Eq. (10) of [Lubis and Hassanzadeh \(2021\)](#). In the first matrix on the left-hand side of Eq. (10), the two columns should be switched. The correct form of Eq. (10) is

$$\begin{bmatrix} \text{reg}_l(z_1, z_1) & \text{reg}_l(z_2, z_1) \\ \text{reg}_l(z_1, z_2) & \text{reg}_l(z_2, z_2) \end{bmatrix} \begin{bmatrix} b_{21} \\ b_{22} \end{bmatrix} = \begin{bmatrix} \text{reg}_l(m_2, z_1) \\ \text{reg}_l(m_2, z_2) \end{bmatrix}. \quad (1)$$

Nonetheless, all analyses in [Lubis and Hassanzadeh \(2021\)](#) were done using the correct formula; hence, the results are not affected in any way. The authors sincerely apologize for any inconvenience this error may have caused.
