

# from headquarters

---

To communicate more efficiently with members and to provide better services, the AMS Headquarters recently became a full node on the Internet with the domain name [ametsoc.org](http://ametsoc.org). The following lists all e-mail addresses and responsibilities for all Headquarters staff members and staff members at the Washington, D.C., office. A number of general addresses and their intended use are also listed. In addition, while 617-227-2425 continues to serve as the primary number for calls to AMS Headquarters, callers who know the extension of the party they wish to reach can call 617-227-2426 and enter the extension at the prompt. Extensions are included in the staff listing below. Any staff at the Washington, D.C., office can be reached at 202-466-6070.

## **AMS Staff**

<u>Name</u>	<u>Ext.</u>	<u>E-mail</u>	<u>Responsibility</u>

## Announcing The End Of The Ice Age.

### Vaisala introduces the ice-free heated anemometer.

Ice and snow are no problem for Vaisala's new WAA25 Heated Anemometer. It provides full-performance measurement capability in all kinds of weather. Power consumption is low and reliability is high with unique contact-less power transfer to heated cups.

**Free Literature.** For more information on the new WAA25 Heated Anemometer and other ice-free wind instruments, call or fax Vaisala today. And make the problem of icing a thing of the past.

**Measuring the Environment**

100 Commerce Way, Woburn, MA 01801
