We have identified a typographical error in Eq. (4) (discrete Fourier transform of v'_t) of [Fragkoulidis and Wirth \(2020\)](#). Specifically, the multiplication factor of $1/L$ is wrongly inserted. The correct version of Eq. (4) is as follows:

$$\tilde{v}'_m = \sum_{\ell=0}^{L-1} v'_\ell e^{-2im\pi\ell/L}.$$

All analyses in this study were done using the correct formula, hence the results are not affected in any way.
