Copyright Policy The American Meteorological Society’s mission to disseminate knowledge in the atmospheric and related oceanic and hydrologic sciences is best served by promoting wide access to AMS publications while ensuring that this dissemination preserves the integrity of the originally published works. The copyrights to the materials published in AMS journals, monographs, and other publications are transferred from the authors to AMS at the time the materials are accepted for publication, allowing AMS to act as the steward for the intellectual property contained in the published works. It also allows AMS to protect the value of the materials in order to generate revenue for AMS to support the peer-review publication process so crucial to the scholarly scientific endeavor.

Use of AMS Copyrighted Materials Figures, tables, and brief excerpts from AMS primary journals (Bulletin of the American Meteorological Society; Artificial Intelligence for the Earth Systems; Journal of the Atmospheric Sciences; Journal of Applied Meteorology and Climatology; Journal of Physical Oceanography; Monthly Weather Review; Journal of Atmospheric and Oceanic Technology; Weather and Forecasting Journal of Hydrometeorology; Journal of Climate; Weather, Climate, and Society) and Meteorological Monographs may be used in scientific educational works provided the original source is acknowledged. This policy also applies to earlier issues in which the copyright notice may have stated a different policy. Restrictions on other uses of material from the abovementioned primary publications, including republication and copying of articles, are stated in the copyright notice near the front of each issue and discussed in more detail in the AMS Copyright Policy available in the Author Resources section of the AMS website. It is emphasized that the policy stated in the opening sentence above applies only to primary publications listed there. For policy on copying and other uses of materials from Meteorological and Geophysical Abstracts, the Glossary of Meteorology, and all other AMS publications and books, please consult the copyright notice in each.
