

CORRIGENDUM

In the article, "Interaction of Low-Level Flow with The Western Ghat Mountains and Offshore Convection in the Summer Monsoon" by Robert L. Grossman and Dale R. Durran (*Monthly Weather Review*, **112**, 652–672), the following corrections should be noted. In Table 3 the value of Θ for 1000 mb should be 301.7 instead of 381.7. The reference for Fou *et al.* (1984) (first cited on p. 654) should be Fu *et al.* (1984).¹ The reference for Krishnamurti and Ramanathan (1982) (first cited on p. 656; not cited in References) is: Krishnamurti, T. N., and Y. Ramanathan, 1982: Sensitivity of the monsoon onset to differential heating. *J. Atmos. Sci.*, **39**, 1290–1306.

¹ Editor's update to References: Fu, C. B., J. O. Fletcher and R. Slutz, 1984: The structure of the Asian Monsoon surface wind field over the ocean. *J. Climate Appl. Meteor.*, **22**, 1242–1252.
