

## CORRIGENDUM

Author Edward A. Brandes has noted that an incorrect illustration was set in his article, "Evolution and Structure of the 6-7 May 1985 Mesoscale Convective System and Associated Vortex," that appeared in the January 1990 issue of *Monthly Weather Review*, Vol. 118, No. 1, 109-207.

The correct Fig. 17 on p. 124 is as follows:

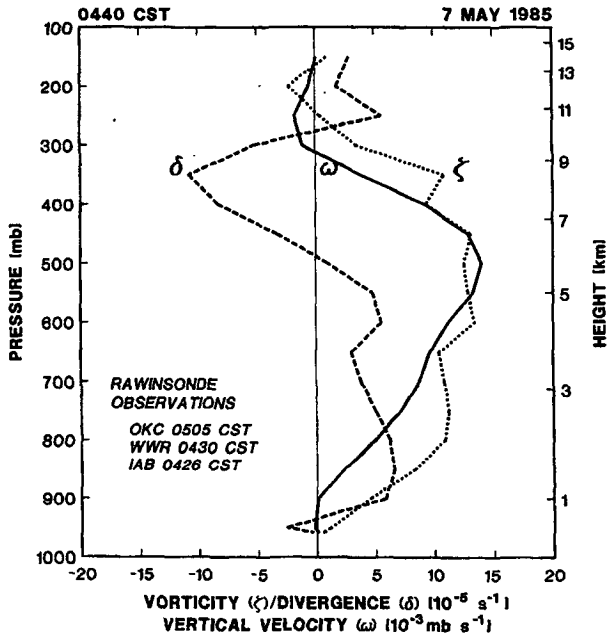

FIG.17. Kinematic analysis as in Fig. 12, except for mesovortex core at 0440 CST 7 May 1985.
