

## CORRIGENDUM

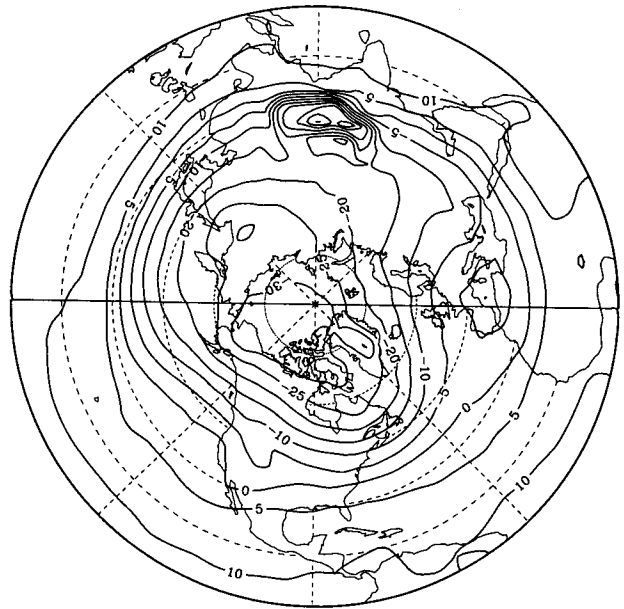

Due to a bug in a plotting routine, the article appearing in *Monthly Weather Review*, Vol. 118, No. 8, entitled "A Heat Budget Analysis of the Polar Troposphere in and around Alaska during the Abnormal Winter of 1988/89" by H. L. Tanaka and Mary F. Milkovich, contains figures with inaccurately drawn contours. The corrected figures are presented below.

700 mb T Jan 1–15 1989

700 mb T Jan 16–31 1989

700 mb T Feb 1–15 1989

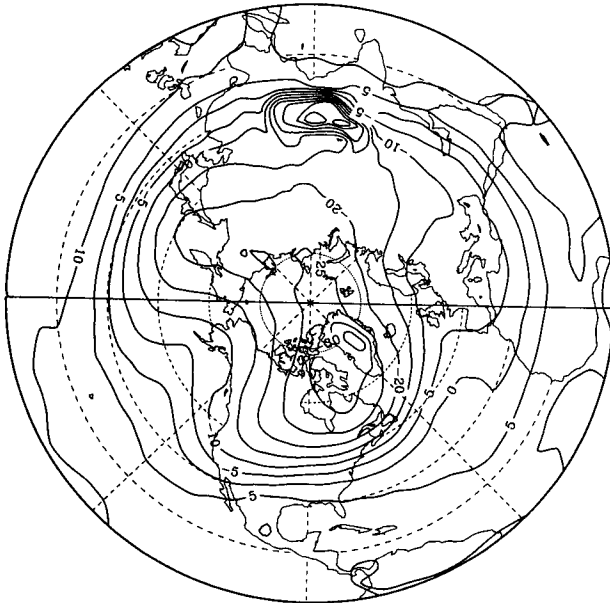

FIG. 3. Mean 700-mb temperature ( $^{\circ}\text{C}$ ) for the same periods as in Fig. 2. The shaded regions denote temperature below  $-30^{\circ}\text{C}$ .
