

## CORRIGENDUM

MARK T. STOELINGA, JOHN D. LOCATELLI, RALPH D. SCHWARTZ, AND  
PETER V. HOBBS

*Department of Atmospheric Sciences, University of Washington, Seattle, Washington*

In Stoelinga et al. (2003), the descriptions of Figs. 15a and 15b are reversed. The correct caption should read as follows: Fig. 15. Schematic showing the differences between (a) a warm-sector squall line and (b) a CFA squall line. See text for explanation.

Only the figure caption is in error. The order of the panels themselves, as well as the descriptions of the panels in the text, are correct as published.
