There is an incorrect writing in the equation of $G$ in appendix B in Luo et al. (2019) and also in Luo et al. (2018) because of a typographic error, although the results are not affected. The equation of $G$ should read

$$G = \alpha \frac{L_y (\tilde{k}_1 + \tilde{k}_2)^2 (\tilde{k}_2 - \tilde{k}_1)m}{2 \frac{4(k^2 + m^2 + F)}{}}.$$

The authors regret any inconvenience this error may have caused.
